MAKING MOVES

“This year, I graduated with my MPA from Virginia Tech. As I was getting ready to graduate, the company I was interning with offered me a full-time position as Project Coordinator at SAS Builders. I coordinate all of our development projects around Blacksburg and Virginia Tech within the company; only a little less stressful than coordinating brothers within Eta Chi. Shelby and I got engaged and are looking forward to continuing our lives in Southwest Virginia. Missing my YSU brothers every day, I’ll look for you at the alumni homecoming tailgate in the fall.”
